## Interesting Facts

How much do you really know about schools around the world apart from different curriculums? There is a whole lot more beyond the books and buildings that you probably don't know of. Here are some interesting facts about schools from around the world, which might just make you look at it with a new perspective.

- A school in the Philippines is made entirely of recycled pop bottles

- Back in 2014, there was an elementary school in Turin, Italy that only had one teacher and one student - giving it the reputation of being the smallest school in the world.

- In a remote area of Colombia, kids have to travel to school on a zip-line.
